What is StubHub Fan Rewards?

How to earn rewards

Become a Superstar!

The fine print

You buy tickets. You earn rewards. It's that simple.

Once you enroll, you'll earn rewards on every eligible purchase. Once you earn \$10 in rewards, we'll give you a \$10 FanCode to use on a future StubHub.com purchase.

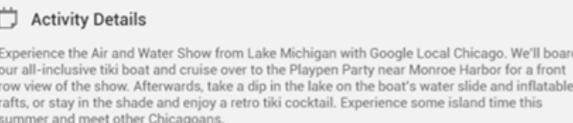

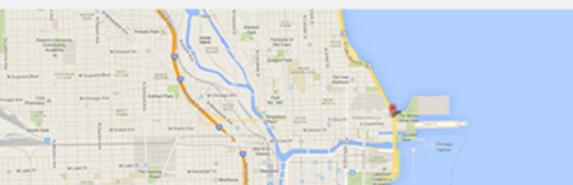

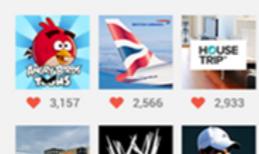

There's no limit to the rewards you can earn, and it will never cost anything to be in the program. And remember - if you told us your birthday month when you signed up, we'll send you a surprise when that month comes around!

Air and Water Show Tiki Boat Party with Google Local Chicago
Creator: Wesley Lovoure  Joined 0 Like
11:00 July 22nd | Monday 325 Michigan Avenue, Chicago \$ free 

Experience the Air and Water Show from Lake Michigan with Google Local Chicago. We'll board our all-inclusive tiki boat and cruise over to the Playpen Party near Monroe Harbor for a front row view of the show. Afterwards, take a dip in the lake on the boat's water slide and inflatable rafts, or stay in the shade and enjoy a retro tiki cocktail. Experience some island time this summer and meet other Chicagoans.
Share with others about the event by using the #tikiboatchi hashtag.
Remember: Entrance is NOT guaranteed. Only users who receive a confirmation email before the event will be invited to attend. Spots are limited so we're giving priority to those who sign up and write at least 15 new high-quality reviews.

Responsive: desktop tablet mobile

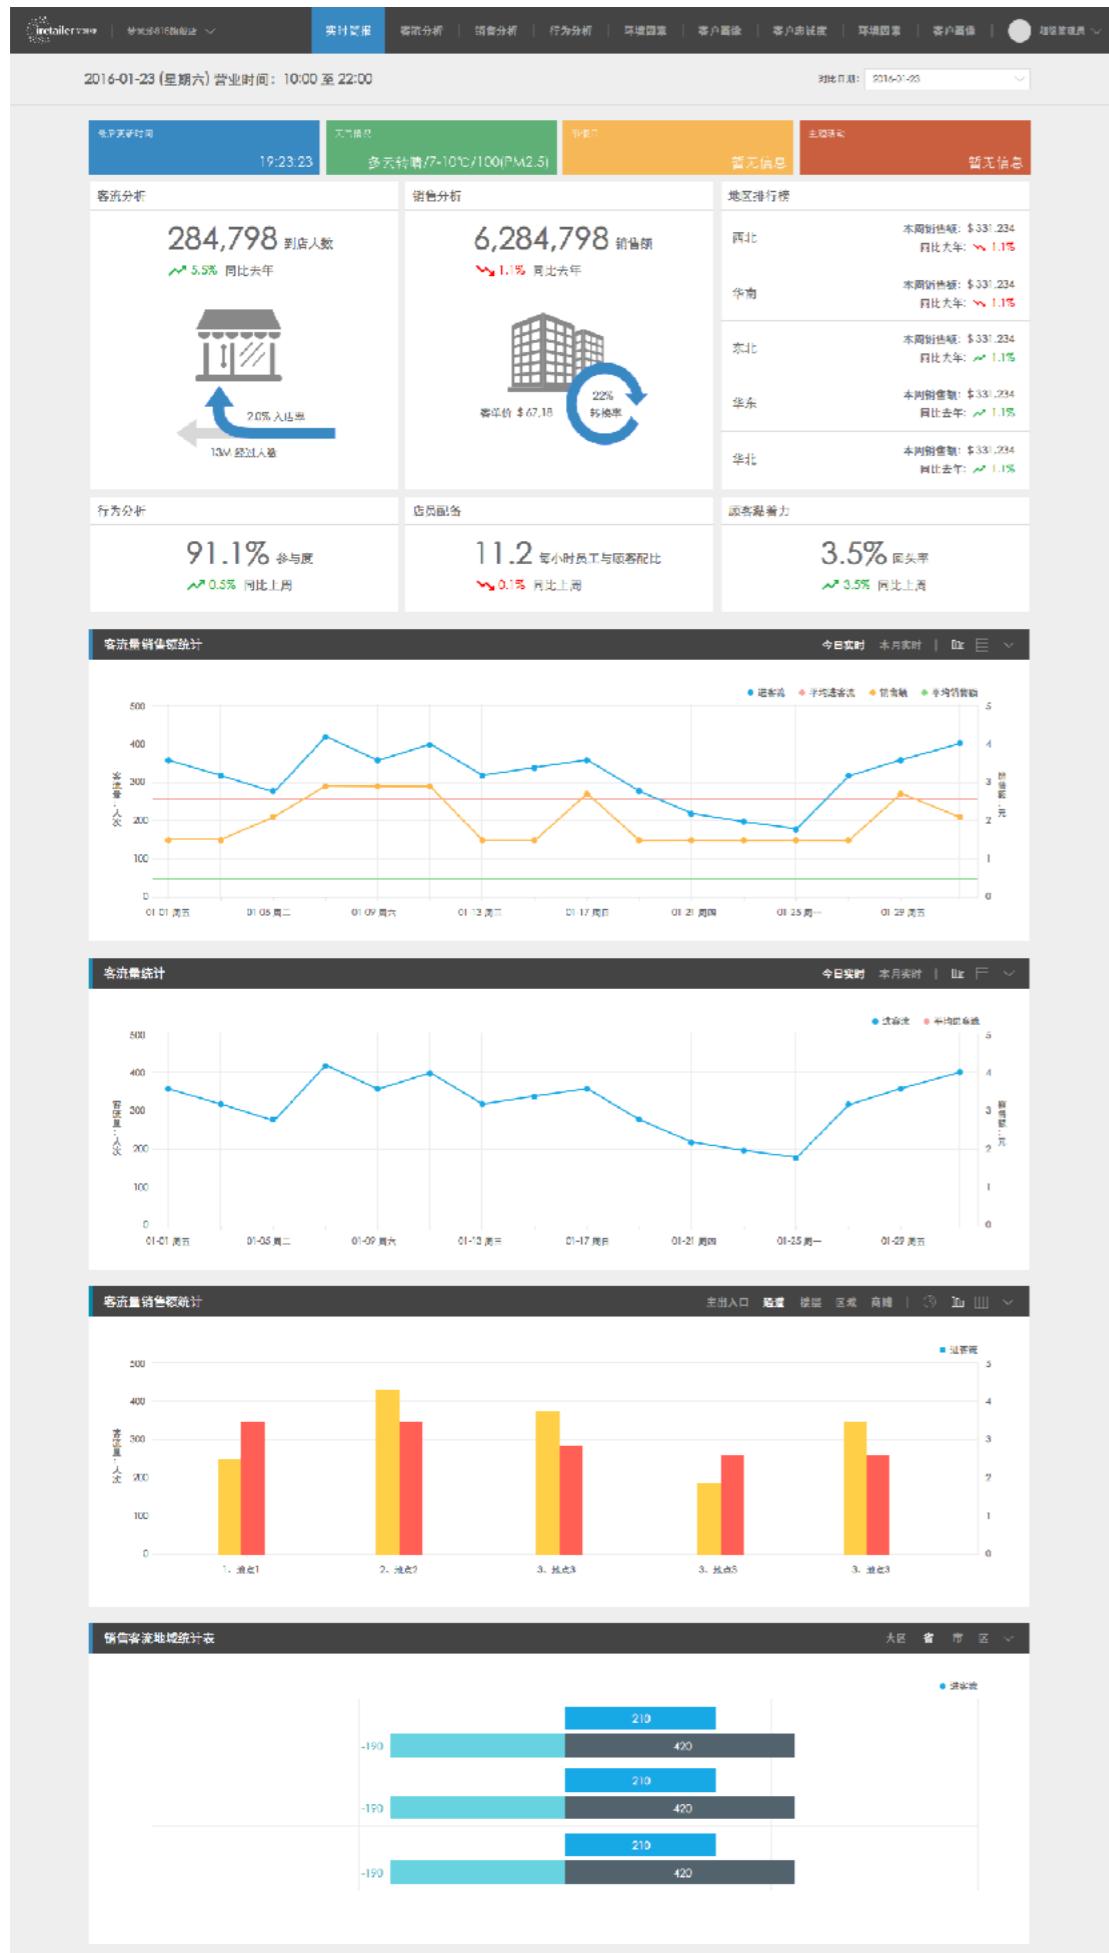

A detailed screenshot of the iretailer business settings interface. It features a sidebar with '员工数量' (Employee Count), '商品展示' (Product Display), '主题活动' (Theme Activities), and '营业时间' (Business Hours). The main area shows sections for '展品区' (Exhibit Hall), '一号展区' (Booth 1), '厦门柜台' (Xiamen Counter), and '正正柜台' (ZhangZhang Counter). Each section has a '新增' (Add New) button. Below these are weather forecasts for Shanghai and a summary of the day's activities.

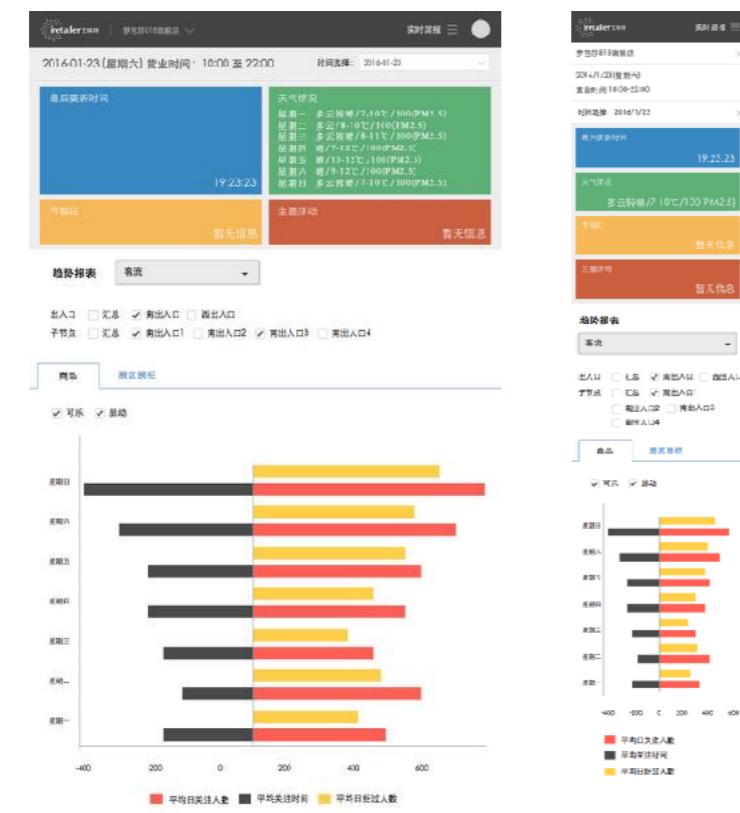

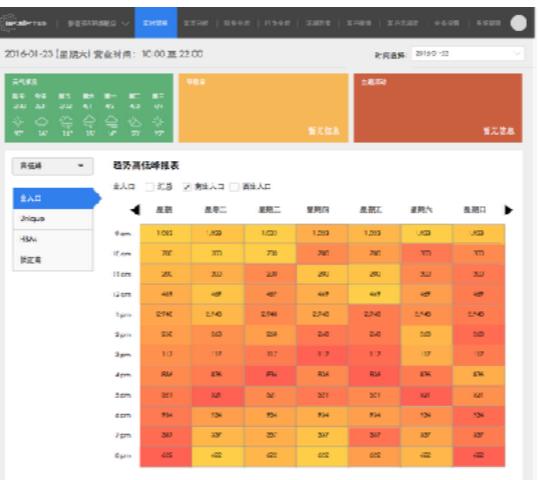

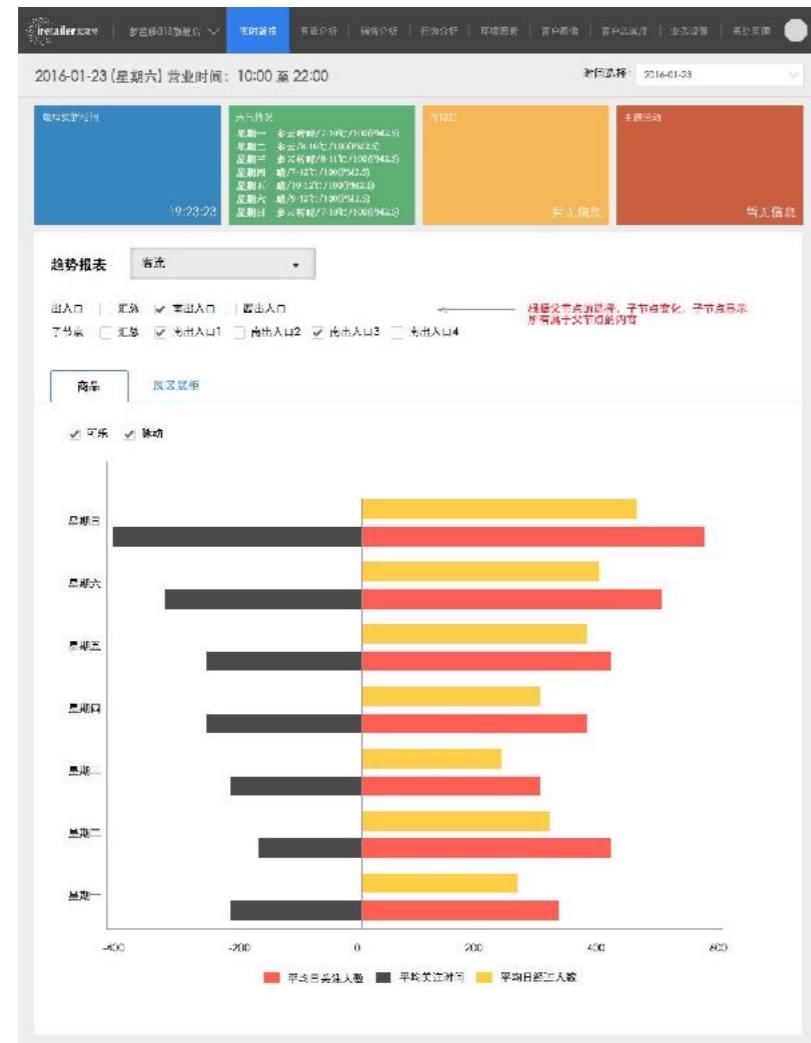

A tablet screenshot of the business settings interface. It shows the same layout as the desktop version, including the sidebar and the four sections for exhibits and counters. The weather forecast and activity summary are also present.

A mobile phone screenshot of the business settings interface. The layout is consistent with the desktop and tablet versions, showing the sidebar and the four sections for exhibits and counters.

A larger mobile phone screenshot of the business settings interface. It shows the sidebar and the four sections for exhibits and counters.

Design Whizz Community

Overview About Us Activities Inspirations Good & Bad Pictures + Edit Versions Copy Delete

"Never doubt that a small group of thoughtful, committed citizens can change the world. Indeed, it is the only thing that ever has."
- Margaret Mead

The Design Whizz Group formed as a grassroots initiative. A handful of ambitious developers, designers, and product owners came together to drive one common goal: to raise awareness for the importance of user experience design at SAP.

The group has been performing numerous activities, hopped on countless stages, harvested many design stories from our customers, and build several apps, to mention just some things. In parallel we have grown in size, gathered followers, attracted further sponsors, and are now spanning over 6 SAP locations worldwide.

The group has been performing numerous activities, hopped on countless stages, harvested many design stories from our customers, and build several apps, to mention just some things. In parallel we have grown in size, gathered followers, attracted further sponsors, and are now spanning over 6 SAP locations worldwide.

Are the Design Whizzes done with their job? No, not at all. Our voyage has just started. A trip that will hopefully lead to a company where user experience is the first thought and everything else is crafted around it.
